Третий альбом произведений

**Красильников И.М. Хорошо синтезированный клавир:** Третий альбом произведений для клавишного синтезатора. – Москва, 2025.

Сборник включает 21 авторскую композицию и предназначен для обучения в детских музыкальных школах, школах искусств и учреждениях дополнительного образования по классу клавишного синтезатора, ансамбля клавишных синтезаторов и студии компьютерной музыки.

## ПРЕДИСЛОВИЕ

Хорошая темперация клавесина и клавикорда дала толчок формированию обширного репертуара. Оснащение клавишного инструмента синтезированными звуками, по-видимому, будет иметь не менее значимые последствия – ведь появился очень интересный инструмент, который можно рассматривать в качестве современной разновидности клавира.

Цифровой синтезатор помимо огромного количества встроенных тембров многократно превосходит традиционные инструменты и по возможностям их редактирования. Помимо этого он открывает принципиально новые возможности работы с звуком, включая создание самых необычных, причудливых виртуальных акустических пространств. К тому же компьютерная интерактивность делает доступным управление этим огромным художественным потенциалом не только музыканту профессионалу, но и любителю, в т.ч. ребенку. Поэтому вполне закономерным видится широкое распространение электронных инструментов в музыкальном быту и образовательной практике.

Обосновано стремление многих преподавателей по классу синтезатора опереться в своей репертуарной политике на лучшие произведения народной, классической и современной музыки. Но все эти произведения написаны для традиционных инструментов. И как бы замечательно ни были выполнены их аранжировки, они не способны в полной мере ответить специфическим художественным возможностям синтезатора. К тому же свой оригинальный репертуар необходим для утверждения этого инструмента как равного среди прочих инструментов.

Данные обстоятельства побудили меня к созданию альбома пьес для синтезатора, предназначенных для обучения в ДМШ / ДШИ и других учреждениях дополнительного образования. Название альбома – «Хорошо синтезированный клавир». Притом это уже третий сборник с подобным названием (первый вышел в 2013 г., второй – в 2021 г.). И хотя все эти сборники не дотягивают по масштабности до известного баховского цикла,озвучным ему названием хотелось отметить рождение нового инструмента в музыкальном образовании и на концертной сцене.

Третий альбом включает 21 оригинальную композицию, среди которых для клавишного синтезатора соло представлено 17 произведений и для ансамбля клавишных синтезаторов – 4 произведения. Среди них есть как уже известные коллегам-педагогам, так и новые, специально написанные для данного сборника.

Конечно, не мне судить о том, что у меня получилось. Но хотелось бы надеяться, что представляемый альбом пьес ответит интересу многих преподавателей и учащихся к оригинальному репертуару для синтезатора. А может быть, появление этого альбома будет способствовать привлечению внимания коллег-композиторов к созданию новых произведений для электронного инструмента. Ведь занимаемая им в музыкальной культуре ниша становится все более значимой.
